

Online Co-curricular Activities (CCAs)

Co-curricular activities (CCAs), earlier known as Extracurricular Activities (ECA), are the components of non-academic curriculum that helps to develop various facets of the personality development of the child and students. For all-round development of the child, there is a need for emotional, physical, spiritual and moral development that is complemented and supplemented by Co-curricular Activities.

During this academic year we had home based learning for our students. We will still facilitate our students with online co-curricular activities to maintain and build their potential and character. Online CCA involvement is highly recommended for all students (Y1 - Y12). We offer Non-Sports CCAs this year.
