Dear all,

Greetings of good health!

We warmly welcome everyone back to school and we wish everyone a good start to the new academic year.

We are delighted to see many parents/guardians turning up for the Meet and Greet sessions and the active participation of our children in the two days of orientation.

The new Academic Year ushers in a new normal for everyone of us. It will be our first 100% face to face learning since the lock down of school more than two years ago. It is a time for all of us to renew our fellowship and to ready ourselves for the challenges of the "abnormalities" of the new normal. This include the ever evolving COVID situation, the climate crisis, the on-going war in Ukraine and the energy and food crisis the world is facing.

This new normal calls us to be more adaptable and nimble in responding to change, especially change at the last minute. It humbles us to learn to put the interest of others before self, so the more privileged will uplift those who are not. It has taught us not to take things for granted and to be grateful for the little blessings of life. For me, it has taught me to believe that tomorrow will be better than today and we must never lose sight of HOPE.

My message to the students and staff continue to focus on PRIDE. For everyone to be Passionate in what they do. And if they have not yet identified their Passion, to take time to reflect and think ahead what passion they like to nurture and bring to fruition.

I ask for everyone to show Respect and Responsibility in whatever they do and in their daily dealings. Students need to show respect to others and to themselves. Respect allows us to be mindful of the needs of others and to have meaningful relationships.

CELEBRATING THE COMMUNITY

15 - 21 JULY 2022

One will be respectful when one understands his/her station and do their best to fulfil their roles and obligations in those roles, sometimes as a child to the family, a role model for the siblings, a student to the teacher, and a friend to others. Be Responsible for oneself and others so that together we will make the world a better place. We believe by being respectful and responsible, our students will minimise miscommunication and bad dealings with each other.

Integrity is and must continue to be a foundation of our character and value system. Whatever temptations and distractions we may have for us to lure us to act in dishonest ways, we must never succumb to it. While doing an online test, it is highly probable that one can be tempted to game the system by cheating and get away with it. Sometimes it is possible, sometimes you may get caught. The impact may inevitably be a mark on one's character and a dent in one's conscience. PIAGETians must preserve integrity as our foundation and work our level best when confronted with challenges. To know what we do not know is more valuable than for us to fake it! Press on and grow as true PIAGETians of good moral values.

We will enforce Discipline in our school. This will include discipline in adherence to the strict health and safety protocols. Being safe in school translates into safety for the family. We will take stern action against students who do not comply with the mask wearing rules as well as school rules. It has been more than two years since we last functioned as a full day school. We need to adjust ourselves and ready ourselves to learn and enjoy learning to its fullest. This will be best by us being disciplined and ready for learning.

Everyone need to continually strive for Excellence.

To quote Aristotle, "Excellence is nothing but a habit". We need to adapt and adopt the mindset that we will and must continually do our best. Will the mindset and practice, it will be internalised and become a powerful habit to guide us now and for the future. The prevalence of access to knowledge today is beyond one's wildest imagination. We need to continuously upgrade our knowledge and skills by extensive reading and accessing authenticated reliable sources of knowledge. There will be many sites offering fake information and news and we need to educate everyone on how to assess and access the right sources.

The new school year for NHJS will include the introduction of IT and STEM lessons for the Y7-8 in their curriculum as well as the establishment of a IT-STEM CCA by the staff. The GROW team will also implement its Mentoring Manual and guide our students closely for their university preparation and application. Ms Aileen will continue to drive our Vision 2.0 education for years 7-9 which had been implemented by Ms Rubina two years ago.

The organisation will see some leadership renewal as our effort to grow our staff leadership pipeline. We warmly welcome Ms Shirin Salleh who is returning as the Vice Principal of the school (effective 18 August 2022). We will also initiate subject specialists and deans understudy candidates to prepare potential candidates to take on leadership responsibilities in the near future.

We urge everyone to work together as a TEAM to grow the holistic PIAGETian and to nurture good sons and daughters.

Take care and God bless.
