17 August 2022, Indonesia celebrates its 77th Independence Day. This commemorates the Independence of Indonesia from colonial rule. It is celebrated with patriotism and national pride. As a Filipino who has resided in Indonesia for the past 18 years, I encourage my children to participate in Independence Day activities to nurture their gratitude and appreciation for Indonesia. Similarly, I believe it teaches them to love, have pride and care for the nation. Furthermore, Independence Day helps our children realise the importance of service to the nation, as they will learn about the sacrifices and struggles of the freedom heroes.

Instilling the feeling of love and respect towards one's motherland will create responsible citizens of tomorrow. It is a service we can do for the country. Below are some simple yet effective ways we can inspire our children to cultivate love and pride in one's nation:

1. Create awareness about the rich heritage of Indonesia

Indonesia and any other nation have its cultural heritage as their most valued treasure. Visit museums to showcase the ecological beauty and the country's history that date back years, creating where and who Indonesia is now. Allot a time to talk to our children about the country's natural beauty and artifacts which will help them value the land they live in.

2. Tell stories of the struggle for Independence

The stories of the struggle for Independence will make children understand the sacrifice of our ancestors. Tell them the stories of freedom heroes such as Wage Rudolf Soepratman, Mohammad Yamin, Dr Soepomo, Ir. Soekarno and more. Their stories will teach our children the values of courage, sacrifice, freedom, and respect. Our children will also feel inspired to be dedicated citizens.

3. Teach respect for national symbols

Students should know the importance of national symbols such as Indonesia Raya, flag, PANCASILA, etc. In addition, our children must always respect the national anthem by standing up when it is played or sung.

4. Encourage participation in Independence Day activities

Independence Day is an important national festival we celebrate. Encourage our children to take part in the celebrations in school. You can also take them to parades and flag-raising ceremonies in your area. For school events, participate in dressing up based on the colour of the Indonesian flag or even as one of the heroes. Teach our children the song "Hari Merdeka" and do a sing-along with them.

5. Plan visits to monuments of historical importance

Children learn through experience. It is a great idea to take our children to monuments of historical significance during vacations. Visit monuments like the Nasional Monument (MONAS), Museum Joang, Perumusan Naskah Proclamation Museum, and others. Tell them these places' importance so they will experience patriotic fervour.

6. Be a role model

To teach patriotism to our children, we must be patriotic as well. Since patriotism is about emotions and not knowledge, it must be taught personally. Children get inspired if they see us proud of our country and as a citizen. Let us not talk ill of our country in front of children, not even as a joke.

A country will be in safe hands tomorrow if we contribute to raising our children to be responsible citizens. It will be our tribute to the priceless sacrifice of our ancestors who fought for freedom.

To all my Indonesian colleagues, students and friends,

"Selamat Hari Kemerdekaan Indonesia!"

GROWTH Session: The Fellowship Activity

The Fellowship activity done last Friday was very successful. The value of teamwork and grace were the focus of the fellowship activity. This is one of the programs of the school that reinforces the learning and application of the PIAGET values. Through the activities facilitated by the mentors, the students were able to experience first-hand how teamwork and grace apply to various classroom activities. It is hoped that the learning insights gained by the students from the fellowship activity will foster better relationship among the students.
