SC PRESIDENT'S MESSAGE

BY VIGGO OLIEVER SUGIH

Hi everyone! Firstly, I would like to thank everyone for always supporting the 13th Student Council batch for the entire year. I cannot express enough how much your support means to the student council and our events. You all are the reason for our event's continuous success! From the Ace Cup, Merchandise, Mental Health Week, and the Movie Night, it was your participation and support that made all of them magical.

Every year, the Student Council faces a different and unique challenge from the other years. This year our biggest challenge was uncertainty. With hybrid learning being introduced this year, it was challenging for the student council to introduce events due to the combination of online and offline classes. This created uncertainty for our events as the sudden change forced us to adapt quickly and effectively. Moreover, the hybrid learning tested the Student Council's creativity and innovative skills by attempting to create meaningful and impactful events in the situations we were faced with.

With all the adversity faced this year, the Student Council's success was all because of this year's student council batch. Being in the Student Council for 4 years now, I have been blessed with the opportunity to work with 4 different batches of students, and I can definitely say that this batch is the most closely-knit team I've worked with. The chemistry and bond I have seen from all the committee members is very uplifting to even watch. Their hard work and passion have also contributed so much to the events.

I would like to share my appreciation for all the Student Council members this year. Without you all, this year would have honestly been a constant pain for me. I cannot stress enough how much your perseverance, enthusiasm, and passion changed all the events for the better, created a loving and fun atmosphere in our meetings, and made a batch of students into a family.

During my year as president, I have learned so much in many different areas but the main area is what makes a team a team. My main focus at the start of the year was to give out as many good quality events as possible, and honestly, I thought that was the right

mindset. My job was to lead and work with my team to create magical and memorable events for the NH community. Moreover, I felt the need to push myself to do everything alone. Whether it was to make the event proposal, event rundown, or even just put down a comment in the WhatsApp group, I felt the need to do everything because of my title. My mindset changed when I was listening to a discussion between a committee. The committee had a very fruitful and fun discussion not because the committee head led every discussion but because of the involvement of all equally. That changed everything for me. It wasn't until then I realized the true importance of unity in a team. The true reason why this batch worked so well was because of the equal involvement of everyone in the group. The mindset wasn't my batch, my committee, or my team but it was our batch, our committee, and our team.

I would also like to apologize for all the mistakes I have made throughout this year. As a student, I'm still learning, I'm still trying to understand and I'm still growing as a person. It was my job to lead and inspire you all to be better individuals yet I am still learning how to be one as well. So, thank you for not only giving me the opportunity to lead and inspire you all but to grow alongside you all as we went through another tough year.

Lastly, I would like to share some final advice. Chase your dream, find your passion and do anything in your power to achieve it. You are your greatest enemy, and the only person stopping you is yourself. So get up and chase your dreams, explore and find what makes you happy. You only live once so why not. The only reason why i was able to accomplish what I accomplished is because I was crazy enough to dream and i was driven enough to pursue it. I am like most of you, just a kid. I'm not talented but I am hardworking. So if there's one thing i hope all you all take from me is you can be everything you dream of. All it takes is a dream and yourself.

Thank you all for making a boy's dream a reality but most importantly making this year magical even through all the adversity we faced. See you all next year! Take care and stay safe!

SC MENTORS' MESSAGE

CATCHING UP AFTER COVID-19

There is an air of optimism at the school after the Student Council had to face the difficulties of online learning during the pandemic. We were caught up on routines post pandemic, balancing from online activities to resuming face to face. It all begun with our 'Movie Night event'

The results of this period were challenging given the knowledge that digital divides the struggles to adapt to the new learning environment, coming up with online events such as Ace Cup, Mental Health Week resulting in a few participation, which then motivated the student Council to level up!

To bring back the 'safe return' - Movie night was indeed an event that did its perk from the objective of building stronger bonds, fostering school spirit, unity and finally mood lifter to bring back joy.

Given the challenges, we are relieved we are able to catch up and resume face to face safely and focus on catching up with what we have missed in the last two years of the pandemic.

**There is nothing more
certain and unchanging than
uncertainty and change.**

John F. Kennedy

SC COMMITTEE HEADS: A JOURNEY

COMMITTEE 1 CHAIR

This year, my committee and I worked on the annual events Ace Cup and Level Reach Out. Through the two events, I realized that the Student Council had a job of tying the school community closer together. During Ace Cup, each student showed competitive spirit while battling others in various games. Although everyone viewed each other as opponents, great sportsmanship ultimately led these participants to form relationships lasting even after the competition. During Level Reach Out, students from different grades interacted and worked together. This event allowed students to come out of their comfort zones and communicate with students from other grades while having fun. Through planning and organizing events, I learned to lead others, communicate with different kinds of people and many other essential life skills. I ended the year with a memorable experience and many new friends.

BY JOSEPH WARREN SUSANTO (VIII)

COMMITTEE 1 DEPUTY CHAIR

Having the privilege to work in the Student Council for the past two years, I have no regrets. The experience has been exceptionally pleasant and helped me increase my confidence, teamwork, responsibility, leadership skills, etc. Despite only working in SC during the pandemic through countless zoom meetings, it was quite a journey regardless. I owe that to my fellow SC members and to

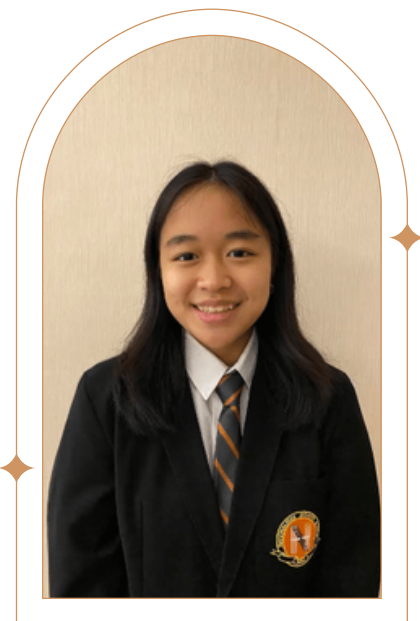

BY LESLEY LAURENCE (YIOE)

the SC mentors. Within these two years, I was able to get to know many bright and intriguing individuals whom I could rely on, whether it was SC-related or not. I truly believe to the highest degree that the Student Council unites students of NHJS regardless of grade levels, academic intellectuality, background, and interests, among other things.

By being in SC, I learned that there's so much more to offer than being just a voice. SC doesn't just help the school, but the members too. There's so much more to the events that we plan. During the process, we learn so many valuable lessons, whether from experience, fellow members, other comm heads, the governing committee, or the advice of the SC mentors. Nevertheless, I am grateful for the whole experience of NationalHigh's Student Council, and I am ecstatic for the next batch of the Student Council to whom I wish the best of luck.

COMMITTEE 2 CHAIR

As I first entered the first SC meeting of the school year, I was welcomed by unfamiliar faces on rectangle screens. Every Wednesday for 3 hours throughout the year, I was able to get to know my committee members one by one. For example, Maddison liked digital art and had knee surgery, and Kirra liked making Instagram posts. One of the Student Council's missions is to represent the students in NH. Especially in the online situation, I was privileged with the opportunity to voice out problems from the students. During our events, I had the chance to connect with students from Primary and Secondary outside of SC and hear their perspectives as an NH student. From a volunteer to a member, Student Council gave me a platform to lead and listen to students for the best of our community.

BY ARIANA J. SAMIN BUDHIHARTO (VICE)

COMMITTEE 2 DEPUTY CHAIR

Out of the past 3 years of my experience in the Student Council, this year has definitely been the most challenging as not only was it my first time being a Vice-Committee Head, but it was also online. However, I was very fortunate that my Committee Head is very active and experienced, and my members are nothing short of amazing.

Our committee was assigned to new events such as "Hideaway" and "Mental Health Week" so we really had to start from scratch. It was very challenging to make an event online that is fun and interesting, but it definitely made us think out of the box and be even more creative in designing and executing these events. Being a Vice-Committee Head is quite challenging at the start. Not only do I have to keep our members motivated and make sure they are on the right track, but I also need to keep the discussion rolling throughout the meeting. This year has definitely greatly improved my leadership skills, and I am definitely looking forward to bringing it to the next level in the next academic year.

BY KENNETH PANGESTU (YIOE)

COMMITTEE 3 CHAIR

As everyone knows, a majority of the school year and SC events this year were online. Although it is certainly different from an offline experience, I believe it was still worthwhile. My first year as a Committee Head was nearly fully online, but I still do not regret joining. It was all due to my wonderful Committee 3 members and Vice-Committee Head I was assigned to this year. From working on proposals to executing the event, my committee and I grew closer from all the hard work we endured together at every meeting. Even though it was online, every Wednesday was filled with great conversations and laughter. After three years in SC, one thing that I love about it is the opportunity to bond with others of different year levels and the experiences picked up from it. I can't wait to see the 14th batch of SC next academic year and hope that more people will be interested in joining.

BY CHARLIZE ALENA PRABOWO (YIOE)

COMMITTEE 3 DEPUTY CHAIR

My learning experience in SC this year has been a rollercoaster ride with more downs than ups. Having to join offline SC for two years, I wasn't expecting much from SC online.

In our first SC meeting, we were assigned to our respective committees and events. My committee was tasked with Prom, Merchandise, and Be Yourself Week. We also did an ice breaker session where we got to know each other. It was one of the funniest experiences I had, but something was missing. It didn't have the same energy as SC offline. Having a conversation with someone through a computer screen was not the same as if it was in real life. During our weekly meetings, it was the same process as SC offline. We made the proposals, organized the events, and finally ran the events. The difference was the excitement to join SC. I wasn't as excited to join the SC weekly online meetings compared to SC Offline.

One of the biggest struggles I faced was making the SC events as engaging as possible. It was hard enough to think of an event idea that would be attractive for the students. Executing the event did not make it easier. It was hard to stay engaging when talking in a zoom. Of course, there are also some ups. I am so fortunate to get an active committee head and collaborative members. I would also like to thank the Governing Committee for supporting us and trying their best to make great SC events. They really made my time in SC this year better.

BY RENNWELL PUTRA TENDEAN (YIII)

COMMITTEE 4 CHAIR

Walking into SC this year, I didn't expect as much of a change as I had in the past 2 years I have been in the organization but it rocketed my expectations from the first meeting we had as a batch and as a committee. With ups and downs, I stayed amazed every week with my committee as they got through event after event. I really do appreciate everything that this SC batch and especially my committee has done for the school but towards our bond with each other as well. Being in SC has taught me so much from practical skills to soft skills that I will cherish and use everyday in the future from being a leader to being a listener. It was a privilege being in such a welcoming community and being able to help the school in any way possible with my now close friends from the student council.

BY DANICA / AURELIE HARTAWAN (Y10E)

COMMITTEE 4 DEPUTY CHAIR

The past year has been a thrilling ride for both myself and others in my committee. After our three events and countless challenges, I think I can confidently say that I've finally been able to learn and appreciate the camaraderie and bond of teamwork that exists between us, which is inseparable and highly resilient. It would be no mistake to also say that this is a reflection of the school community itself and how we've persevered through the pandemic. At the same time, the Student Council has also taught me to harness that resilience and in turn, output something worthwhile. I realized the importance of committing the best versions of our effort and time into whatever we may be participating in. I am very excited for the next year and what it'll have in store for our school and the student council.

BY DENZEL EDWARD MARDJUKI (Y0T)

LEVEL REACH OUT

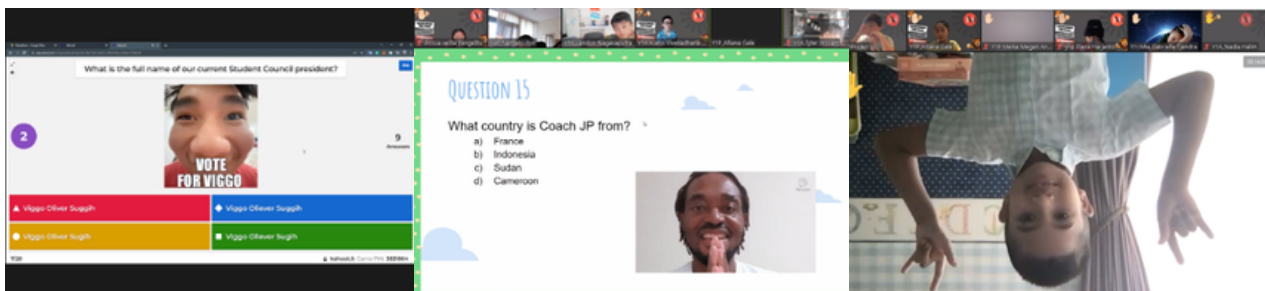

BY COMMITTEE 1

The COVID-19 Pandemic has caused many limitations on school events. However, the Student Council's annual "Level Reach Out" (LRO) was most definitely to continue. With much effort and dedication, the Student Council strived to make yet another special event.

The Student Council's annual LRO, commencing on the 8th of March 2022, aims to strengthen the bonds between students, especially from different classes and grades. We achieved this by making interesting and fun activities for students between levels to enjoy. The event encourages students to work together, socialize, and communicate with each other.

The LRO consisted of a variety of games such as a National High History and Culture Quiz, Charades, Guess the Photo, and Guess the Area. These games expanded the knowledge of the students regarding National High, supported creativity in the students, promoted critical thinking and creativity within the students, expanded the common geographical knowledge of the students, while also encouraging teamwork.

This Level Reach Out was also a valuable learning experience for the Student Council members, as the planning and execution of the event taught everyone the importance of communication in handling mistakes, taking responsibility and eventually pulling through the successful event.

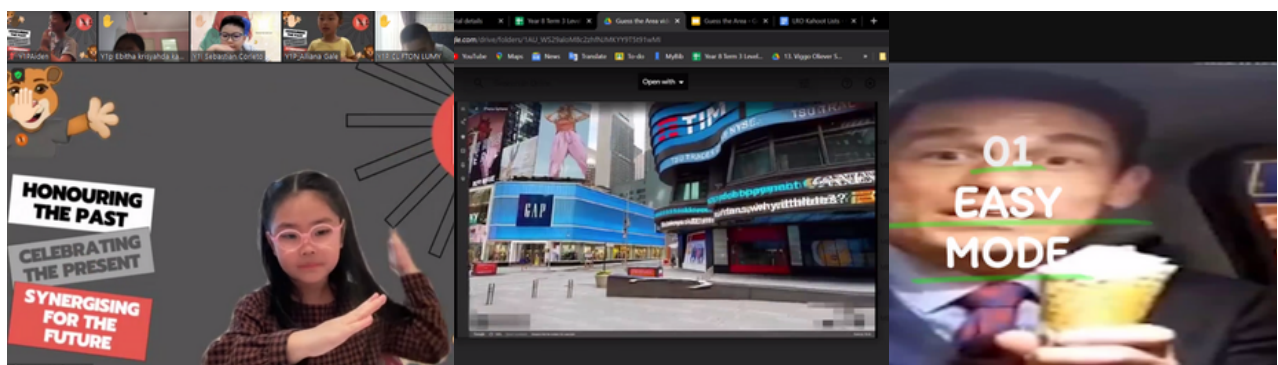

LEVEL REACH OUT

BY COMMITTEE 1

“LRO HAS ALLOWED ME TO GET CLOSER TO MY CLASS AND THE OLDER BATCH. I REALLY LIKED THE ENTHUSIASM FROM THE PICS AND ENJOYED THE GAMES. IT WAS SO EASY TO BE ACTIVE AND PARTICIPATE AS EVERYONE WAS REALLY FRIENDLY AND THERE WAS THIS SENSE OF A COMPETITIVE ENVIRONMENT.” SAYS GAVIN FIRDAUS, A PARTICIPANT OF LRO FROM Y7P.

“THE GAMES WERE FUN AND I LEARNED MORE HISTORY ABOUT THE SCHOOL AND TEACHERS.” SAYS CLIFTON, ANOTHER PARTICIPANT OF LRO FROM Y5G.

AFTER MAKING ALL THE MISTAKES, EVERY PLAYER HAS A CHANCE TO TURN THE OUTCOME OF THE GAME AROUND BY MAKING THE RIGHT MOVES NEXT.” - ZOLTAN ANDREJKOVICS

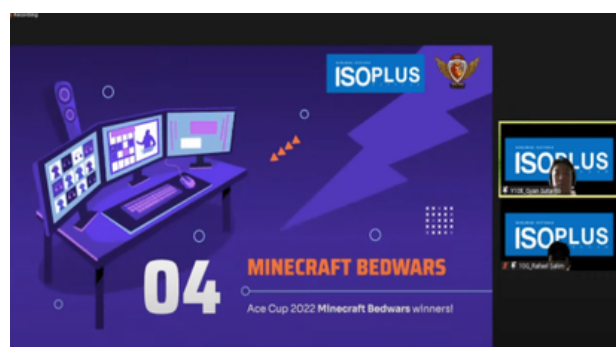

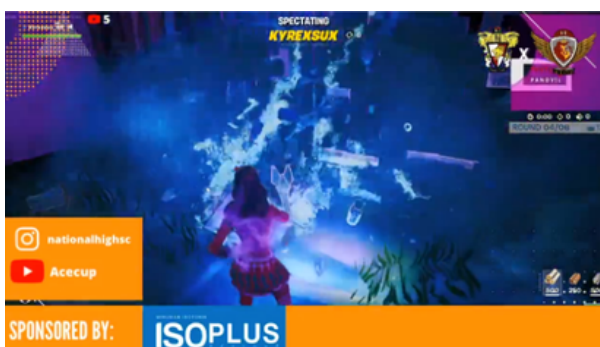

ACE CUP

BY WILLIAM BACHTIAR (Y9T)

The NationalHigh Student Council thanks ISOPLUS for sponsoring this year's Ace Cup. NationalHigh Jakarta School's annual ESports event has finally happened for the second time! It is a Student Council event that strives to promote NationalHigh's PIAGET core value, sportsmanship, and improve relationships between students and schools while simultaneously providing an opportunity to promote and encourage students with talents in the upcoming field of ESports.

This year's Ace Cup undoubtedly was taken to the next level by the Student Council. Filled with thrilling and exciting games, students could not wait to participate in Ace Cup. **"Out of all the student council events, Ace Cup is most definitely the one I am looking forward to!"**, says Kenneth Pangestu.

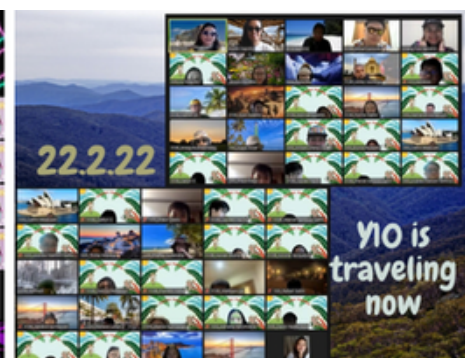

BE YOURSELF WEEK

BY NATHANIEL DARREN LIM YIOG

With our annual Be Yourself Week coming to a close, our students successfully showcased their sense of individuality and personalities through their fashion. From dressing up as tourists to their favorite celebrities, we witnessed an array of styles that emphasized the diversity of our student body. The fashion show was also as magnificent and impactful than ever before! The creativity showcased was simply stunning as the students came up with different pieces of clothing and a variety of camera angles to bring out their charming qualities. Some students even took the initiative to add other creative ideas to make the video more interesting. In general, it was surely a jaw-dropping event!

Even though the event was online, a lot of people still participated and enjoyed the event, dressing up in various costumes. The Be Yourself Week was definitely able to add a bit of joy to our busy schedule and also allow a lot of people to have fun while in school. It is surely something different and enjoyable compared to our daily schedule.

BE YOURSELF WEEK

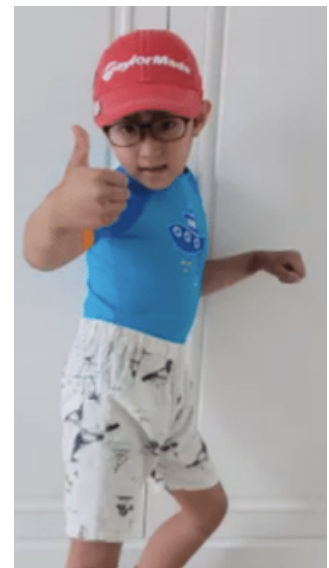

BY NATHANIEL DARREN LIM YIOG

“We really had a fun time while doing this event.” - Kiana Gosal

A lot of people (including me) had so much fun during the event. From choosing which silly clothes to wear, to laughing at other people's silly clothes, this event was surely one of a kind. A lot of people also really like the enthusiasm and support shown by everybody. Even though this event was held online, through all your participation and liveliness, we were able to replicate this event like never before.

“I really liked how everybody in my class participated in this event.” - Charlize Prabowo

We want to thank everyone, especially you, students and teachers, for supporting this event and participating in it. We would also like to express our gratitude to those who took their time to participate in the fashion show! Thank you for participating, and stay safe and healthy!

**“DON'T MAKE FASHION OWN YOU,
BUT YOU DECIDE WHAT YOU ARE
AND WHAT YOU WANT TO
EXPRESS.”**

- GIANNI VERSACE

STAFF APPRECIATION DAY

BY DAVID GUNAWAN (Y8I) &
KANDICE KURNIAWAN (Y10E)

On Friday, 22 April 2022, the Student Council held the annual Staff Appreciation Day event, where students were able to show their gratitude for the continuous dedication of staff and teachers in providing the ideal environment to nurture innovative minds all year round.

Hidden under the guise of 'special contact time', the Student Council was able to easily conceal the surprise booth – a mini café awaiting unexpected staff and teachers of NationalHigh Jakarta School. The Brunch Bar's counter was packed with mouth-watering JCO donuts and exclusive school-meme-themed-mugs with decadent coffee.

Teachers were very excited, smiling as they took photographs. The most harmonious feeling engulfs our soul as we're standing there being swept away in the amusement and rejoicing voice echoes ever so lightly. The decorations were well-prepared too - balloons lined the walls of the Brunch Bar and heart touching video messages from students were showcased by the brightly lit projector.

In keeping with tradition, students were also able to send their thoughtful words for school staff and teachers, which was later compiled in a website by the Student Council.

"DON'T JUDGE EACH DAY BY THE HARVEST YOU REAP, BUT BY THE SEEDS YOU PLANT."

– ROBERT LOUIS STEVENSON

STAFF APPRECIATION DAY

BY DAVID GUNAWAN (Y8I) &
KANDICE KURNIAWAN (Y10E)

The day ended with the handing out of gifts to on-duty security guards and cleaning staff, as well as a well-overdue photoshoot of the Student Council batch of AY 2021-2022. From this event, we learned how hard work will always pay off, from solving challenges during the preparation the day before, we were fortunate that it was undoubtedly a memorable and unique experience.

An English Language facilitator, Mr Ryan, remarked, "It was a special and meaningful gesture from the SC that I personally appreciated. It's also nice to read messages from the students, but it could be better if more of them participated in posting the wishes on the online platform that the SC created. Apart from that, it was really nice!"

MENTAL HEALTH WEEK

BY NOBEL SUHENDRA (Y9E)

Throughout Week 9 of Term 4 (30/05/2022 - 03/06/2022), the Student Council held Mental Health Week, an event with the goal of promoting mental health awareness, as well as helping students with relaxing after exams. Due to the primary topic being mental health, the event was held for Y7-12 students only.

Each day had a different theme. On Compliment Monday, students were given the opportunity to put some compliments into each box in their respective classrooms. On Game Tuesday, students played Mafia and the classical game of musical chairs. The compliments given from Monday were also read out at random. On Wear Green Thursday, as the name suggested, students had to wear a green shirt to school, which is also the color that is often associated with mental health. Finally, on Anything But A Backpack Friday, students have to bring anything but not a backpack to school. A board was also set up on the 3rd floor to allow students to write encouraging messages anonymously to other students.

Aside from this, a general positive feedback has been received from the students and teachers. For Game Tuesday, a lot of students enjoyed the games prepared, and were able to build memories that could last even when they're no longer in NH. For Anything But A

MENTAL HEALTH WEEK

BY NOBEL SUHENDRA (Y9E)

Backpack Friday, students had fun laughing about and comparing the different containers/bags they brought to school to replace their backpacks. This included trolleys, laundry baskets, tote bags, etc.

We, as the Student Council, would like to thank the students and teachers for their participation. Hopefully, we've been able to lift everyone's spirits and create memories that last. This has certainly been a learning experience for all of us, and we would like to apologize for any issues during our event.

"THERE IS HOPE, EVEN WHEN YOUR BRAIN TELLS YOU THERE ISN'T".

- JOHN GREEN

NH MOVIE NIGHT

BY CHARLENE KURNIAWAN (Y11)

As the academic year comes to a close, the Student Council hosted its first ever offline event in the last 2 COVID-19 infested years, NH Movie Night. A fun, energising event filled with excitement and thrill as the students watch their favourite movies with their friends and families while enjoying the comfort of the colourful beanbags and crunchy popcorns, showcasing the full extent of quality outdoor theatre experience with the ginormous screen and noise cancelling audio system, a setting like none other before.

After months of hard work and preparation, NH Movie Night 2022 grew to be the event that we envisioned it to be, sessions filled with nothing but laughter and life-long lessons for organising committee members and participants alike.

"In my opinion, movie night was a very successful event. There were a lot of participants, and we were all able to have a wonderful time. As a member of the Organizing Committee, I was able to build new friendships and bonded as a team with my fellow Student Council members. Everything went smoothly and according to plan, but there will always be room for new improvements. All in all, movie night was a blast and I can't wait for future events!"

— Callista Gandha (Y9)

From the countless trials and errors in providing the best possible version of the event, we were all able to learn from each of our mistakes and overcome them with the help of other talented individuals who shared their wide breadth of perspectives.

NH MOVIE NIGHT

BY CHARLENE KURNIAWAN (Y11)

“Movie Night was a new and fun experience for everyone. I had a great experience there working with both new and old sc members offline after 2 years. In the event itself, we learnt lots of new things about hosting such an event and what we could improve on and implement for next school year. It was great to see the students finally get together again with their friends in a fun night, interacting with many of the students across different grades was also an experience I wouldn’t forget.”

— Zachary Andriansyah (Y11)

Fun nights to remember and more memories to make, the Student Council will continue to host exciting new events where students from all levels will get to interact and bond with each other, garnering new knowledge or skills along the way. Happy holidays! 😊

“CHERISH YOUR VISIONS AND YOUR DREAMS AS THEY ARE THE CHILDREN OF YOUR SOUL, THE BLUEPRINTS OF YOUR ULTIMATE ACHIEVEMENTS.”

— NAPOLEON HILL

SC NATION BUILDING: PARTNERSHIP WITH YAYASAN CINTA HARAPAN INDONESIA

BY MELODY JOCELYN TANUDJAJA (Y11P)

"I AM DIFFERENT, NOT LESS" - DR. TEMPLE GRANDIN

As stated by Dr. Temple Grandin, disability is not an inability. In fact, there is no greater disability in society, than the inability to see a person as more – a famous quote by Robert M. Hensel. Aiming to bridge the gap between the marginalized and non-marginalized communities, the 13th Batch of the Student Council has collaborated with **Yayasan Cinta Harapan** – a non-profit organization that provides free education for children with autism in underprivileged families - to donate a variety of educational necessities to the children at **SLB Cinta Harapan (Sekolah Luar Biasa Cinta Harapan)**.

Through the donation of special equipment such as art materials and sewing machines, Yayasan Cinta Harapan Indonesia was able to conduct art and sewing workshops, aiming to expand the childrens' creative horizon and teach hands-on skills that may benefit them later in the future! Together, we break down the educational barrier by providing the necessary supplies to improve not only the learning environment, but also the quality of health.

Raising a total of **Rp 11,030,000** from the recently concluded **Care4Care** Event, we have donated a sum of **Rp 10,000,000** worth of supplies:

1) ART EQUIPMENTS FOR ART LESSONS

2) SEWING MACHINE FOR SPECIAL SEWING LESSONS

3) TABLE AND CHAIR ADAPTED FOR SPECIAL LEARNING

To facilitate the childrens' special needs, we donated 2 sets of tables and chairs, specially designed to help the children focus.

We would like to thank Yayasan Cinta Harapan Indonesia for their help in distributing the items to the children, and we hope that these items will not only improve the overall learning environment, but also motivate these children to learn.
