Dear all,

Congratulations! We have completed the first term of our academic year.

First and foremost, we want to note and celebrate the grit and spirit of perseverance exhibited by our students and staff. Despite the challenges, such as the sudden movement of class to HBL or school closure for cleaning during the term, we managed to have meaningful learning and activities. Kudos to parents and guardians who had supported our effort for continuous improvement.

This term, we tinkered with ideas such as gradual transition to more face-to-face activities, we were inundated with policies from the DINAS for our compliance and execution. Nevertheless, the DINAS had been supportive of the school effort and has extended guidance through our local principals to make the learning experience and environment safer and better. Term 2's health protocol with regards to mask wearing for sports and physical education is being reviewed by them and we hope for a favourable response in due course.

Our latest batch of graduates started their university journey and we want to congratulate them for going to their universities of choice and wish them well. We want to urge them to continue to exhibit the PIAGET values and also to continue to strive to be good sons and daughters, life-long citizens and active citizens. We believe the university stint will further enhance their abilities to make this world a better place.

We are heartened that we managed to have several of the milestone programs executed, such as the Y9 Habits of Mind Camp in Inagro and several others. We had resumed training for Football, Basketball, and other team sports. We look forward to more sports and games for all the students in the preceding months of this academic year.

CELEBRATING THE COMMUNITY

16-22 SEPTEMBER 2022

The school hosted the Board of Governors visit from 13 to 14 September 2022 after a hiatus of 3 years. The board members managed to meet groups of students and staff as well as walk around the school. We were told of the in-principle approval of our school's brief for a new school block. We want to record our gratitude to the Board of Governors and Board of Trustees for the support to expand the school facilities to provide the best learning possible for our students.

This term saw a major revamp of our ICT curriculum and affordances. A Tech Hub was set up with iMac machines and additional laptops were purchased to support IT and STEAM education in our school. We want to encourage more participation in our IT-related CCAs so that students can learn and harness technology for learning and living. A formal STEAM and Design Thinking curriculum has been introduced to Y7 and 8 students and will gradually expand to other levels.

Ms Shirin Salleh has re-joined NHJS as the new Vice Principal. There is a concerted effort in growing more leaders from amongst the staff so that we can muster the best leadership to lead our school into the post-pandemic era of learning.

We wish everyone a safe and good break after ten intensive weeks of learning.

God bless.

Mr Ang Hwee Khoon

Mid-Autumn Festival Celebration 2022

On the 9th of September 2022, the first onsite post-pandemic Mid-Autumn Festival was held by NationalHigh Jakarta School. The students were filled with excitement, as the festival started off with various breathtaking performances by our students and teachers. Throughout the performances, many students waved their phones' flashlights to show their support for their fellow friends and teachers.

Following the stunning performances, the Mid-Autumn Festival featured numerous booths, where each booth provided different and unique entertaining activities that even rewarded prizes! These activities included, rescue rabbit, tic-tac-toe, pick bean up, clay rabbit, lantern riddles, ring toss, and lastly, lucky bowling.

Countless students rushed to line up for all of the games. Unfortunately, in the midst of the hour-long activities, the weather deteriorated to a heavy downpour affecting the experience for students and teachers who were engaged in the booths activities.

In the following hour, the event PICs gathered Y1-Y12 students in the multi purpose hall for a lantern lighting ceremony, where students were given paper lanterns along with electric candles. All the bright lights in the MPH were switched off, allowing the lanterns to shine brightly in the dark. During this time, an aweing performance captivated everyone's attention. A human figure was spotlighted to reach for the moon, with its loud whooshing, as a big radiant red colored banner revealing a Chinese text that translated to "Happy Mid-Autumn Festival" unfurled rapidly.

As the Mid-Autumn festival came to an end, the students and teachers proceeded home. Although this year's Mid-Autumn Festival wasn't as smooth as we expected, it was still a spectacular event as always.

'The moon is bright, the cake is sweet, may you all enjoy a happy and safe Mid-Autumn Festival!'

ICAS 2022

After a two-year hiatus, International Competitions and Assessments for Schools (ICAS) is back. For the first time ever, our students from Years 3 to 11 are taking the tests completely online. They are sitting for tests in Mathematics, Science, English and Digital Technologies at the NHJS Tech Hub since the 13th of September 2022 and will continue until the 19th. There will be no exams on the weekend of 17th and 18th September.
