兔年兔星来高照

这个学期的活动可以说是多姿多彩，除了华人新年庆祝活动，在1月18日学生会举行了“Field Day”，每一位学生和老师们按照自己的组别参加比赛。活动的目的是为了师生们能透过不同的活动，促进彼此的感情，建立信任与合作的精神。

2023年1月22日（农历正月初一）是癸卯兔年的第一天。我校将于1月20日举行华人新年庆祝活动，今年的主题是“健康兔宝宝 NH 迎新春 Healthy Bunny, Celebrate Spring New Year Together”。在迎接兔年来临前，学生们会参加新春玉兔彩色与绘画比赛（小学一、二年级）、新春十二生肖面具设计比赛（小学三、四年级）和新春教室布置比赛（中学与高中班级）。各班级的师生们也如火如荼地为这次活动做准备。有的学生们带着各种各样的新年装饰品布置课室，有的学生练习表演，有的学生帮忙准备游戏，有的家长也赞助了一些新年食品。虽然活动当天是个欢庆的日子，我们还是希望大家遵守戴口罩、常洗手的习惯，保持卫生。希望在庆祝活动当天，每个人都健康和开心。

接着，一年一度的NH X Ace Cup 也将在2月6日至11日展开。此次的活动不仅邀请其他各校的学生参加足球、篮球和排球的比赛，也包括了e-sports 的比赛，希望每位学生们都能在各自有兴趣的领域大放异彩。

与此同时，第七届春笋杯也于1月11日开始报名，这次的比赛主要是以华语朗诵比赛为主。比赛的组别分为4组：一、二年级；三四年级，五六年级和中学七年级至十年级。有兴趣的学生，请踊跃参加。最后，献上一首出自道平常的《庆新年》：

bǎn pào shēng shēng yíng xīn nián, miào lián héng shēng tiē mén qián。
鞭炮声声迎新年，妙联横生贴门前。

The activities of this semester can be said to be colourful. In addition to the Chinese New Year celebration, the Student council held a "Field Day" on 18 January. Every student and teacher participated in the competition representing their respective house colour. The purpose of the activity is to promote mutual affection and build a spirit of trust and cooperation between students through different activities.

22 January 2023, the first day of the first lunar month is the first day of the year of the rabbit. Our school will hold a Chinese New Year celebration on 20 January. This year's theme is "Healthy Bunny, Celebrate Spring New Year Together". Before welcoming the Year of the Rabbit, students will participate in different activities, like Year 1- Year 2 Jade Rabbit Colour and Drawing Competition, Year 3- Year 4 Zodiac Mask Design Competition and Year 7- Year 12 Chinese New Year Class Theme -based Decoration Competition. The teachers and students of each class are also in full swing in their preparation for this event. The students brought all kinds of decorations to decorate their classroom, practiced performances, and helped prepare games. Some parents sponsored the foods for everyone to partake and to support the event. On 20 January, we urge everyone wear masks, wash hands and maintain hygiene. We hope that everyone would be healthy and happy on the day of the celebration.

Additional, the annual NH X Ace Cup will be held from 6 February until 11 February. Student Council has invited other schools to participate in soccer, basketball and volleyball competitions. For this year, this event will also include e-sports competitions, hoping that each student would excel in their field of interest.

Finally, a poem from Tao "Celebrate the New Year" :

bān pào shēng shēng yíng xīn nián miào lián héng shēng tiē mén qián
鞭炮声声迎新年， 妙联横生贴门前。

The SUSS-PIAGET Impact Start Up Challenge which was initially launched in 2018 had its 3rd face-to-face edition in 2023. During the pandemic (June 2020-June 2022), it was conducted online and involved participants from China and other ASEAN countries like Thailand, Vietnam and the Philippines. This only shows that the desire to provide authentic experiences to our students continue to motivate participating institutions to explore ways to work around challenging situations like a global pandemic.

The ISC 2023 is the first face-to-face business competition that 20 Piaget students joined this year. This group consisted of sixteen Y10 and three Y11 students from NationalHigh Jakarta School and one student from SNA, Surabaya. A briefing was held online for all participants last 3 January via zoom. Facilitated by Mr Kenneth Yap, the lead instructor from SUSS, the participants were introduced to the Lean Start Up Methodology and encouraged to come up with a 1-minute pitch for a business idea they feel strongly about. These ideas serve as the basis for their grouping:

Team 1: Peeace – a startup created a compact device that allows women to pee hygienically and comfortably standing up.

Team 2: Grow Green – a startup that is focused on turning food waste into fertilizers to reduce food wastage.

Team 3: EcoPaws – a startup aiming to build a sustainable world for pets.

Team 4: Therapedia – a startup with a mobile application tackling mental health issues faced by youth today.

Team 5: GetKlean – a start up aiming to connect people looking to outsource their cleaning tasks with people who are looking to earn extra income from their free time.

Team 6: No-Q – a startup with a reservation app where users can view queue times at participating restaurants in order to shorten waiting time.

Team 7: Eco Mail – a startup that utilises biodegradable padded mailers to reduce waste.

The workshop-competition spans six days from 9-14 January 2023. Each day is focused on specific topics and activities that are designed to build the participants skillset in verifying their ideas through market research, consolidating data from their research and refining their product design and preparing their pitch decks:

Day 6: 14 Jan DEMO DAY

- Pitching final decks to the panel of judges
- Awarding ceremony

Saturday, 14 January started bright and sunny and all the participants walked into the auditorium at 8:00 am. The atmosphere was marked with excitement and nervousness as the different teams sat at their designated places. Each team donning their best attire and mentally psyching themselves up for their 15-minutes of presentation. The speakers quietly mumbling their keypoints as “reminder to self” and doing their best to wear their most confident smiles. A few moments later, parents of participants and the judges started entering the hall and taking their seats as the program was called to order by the host, Mr Josh.

The program kicked off with Mr Ang’s welcome remarks, followed by a short inspirational speech from Mr Wesley Yiu, an NHJS alumnus and an entrepreneur. The finals proper followed immediately with the introduction of judges.

The judges consisting of Ms Amelia Permata, the international Program Manager of Plug N Play Indonesia; Reinaldo Tendean, co-founder and co-CEO of Finku and alumnus of NHJS and Rangga Husnaprawira, Chief Product Officer at GovTech Edu, a technology arm supporting the Ministry of Education – asked questions that scrutinised each team’s deck, data research and projected income.

After an exhilarating two hours and a half of presentation and Q&A, the following teams emerged as winners of the ISC2023:

- 1 st Place: Therapedia (Thomas & Carlsson Luhur)
 - 1 st Runner Up: EcoPaws (Calista, Benjamin and Jayden)
 - 2 nd Runner Up: Peeace (Danica and Sarah)

Comments shared by participants of SUSS PIAGET ISC 2023

My goal was to further understand the exact aspects that are involved in planning and creating a business, as well as to have fun and meet new people. I was able to meet my goals because after the programme, I was able to acknowledge what goes on when creating a business, my teammates were also extremely fun to work with.

- Bellamedha, Y10T

I was able to meet my goal for working well with new people with different backgrounds in this event. I was also able to learn more things around the new generation of the business world. It was a wonderful opportunity to join this program. It really opened my eyes to the real business world outside of the classroom. I learned a lot not only on how to run an impactful business, but also its obstacles. Overall, it was such a memorable event and I would definitely recommend this to other students.

- Rebecca D. Y10G

I really enjoyed the mentoring sessions as it is very helpful in the process of building the start-up. The get out of building sessions were also very interesting and enjoyable as it is a very good experience for me and my group. The weeklong program went well overall. I thought the time was limited for our team to complete the start-up pitch. And this was my greatest concern. However, with the guidance of the teachers, my group was able to make it work. My goal when I joined this event was to learn new things and get deeper into businesses and start-ups. I was able to meet those goals and even make new friends in the process. The programme is very interesting and challenging at the same time.

- Faustina Canika Zhu, Y10T

I enjoyed the GOOB trips with my teammates and I found the mock pitches very helpful as there were many points given by Mr Kenneth that greatly improved our final presentation to the judges. Conducting interviews during the GOOB sessions were quite challenging as it was difficult to find strangers that were willing to talk to us, especially as our questions were quite personal. My goals were only to gain experience and meet new people, so placing third place exceeded my expectations. I was also very satisfied with my grouping that I still keep in contact with them until now. I would definitely recommend this to other students because not a lot of competitions offer the experience of involving real world factors into the work. It was also a great opportunity to meet friends and have fun with your teammates while working on the project.

- Sarah Tanuyanti, Y10E

SUSS ARTICLE

I was also able to meet my personal goals in joining this event because I got to socialise with people more and learned how to work with people I don't even know. This event also made me dare to interview people. I would recommend this to other students as this can make you learn how to work with strangers. It helps one to socialise better.

- Carlson Luhur, Y10G

I found the discussion with my teammates who are older and more experienced than me the most enjoyable while the GOOB activities the most challenging. This is partly because I am not so fluent in the Indonesian language and I felt a bit awkward interviewing strangers. All things considered, in spite of some hitches, I was able to meet my personal goals of gaining experience and knowledge for

creating a startup business. I feel that this program is quite demanding for people who have trouble getting out of their comfort zone.
