VICE PRINCIPAL'S MESSAGE

Kicking Off Term 2

Dear NH Community

Welcome back! I hope the break gave you the rest you needed, because Term 2 is here and it is packed with moments that matter. After the energy of our first term, this new term gives us a chance to grow further as a community, to celebrate together, and to challenge ourselves in meaningful ways.

This week, we are thrilled to host the NH Lions Cup, running from 24 to 27 September 2025. Sixteen schools and nearly 300 athletes are joining us to compete in basketball, volleyball, soccer and swimming. The Lions Cup is never just about trophies. It is about how we play. With Passion, Integrity, Adaptability, Grace, Excellence, and Teamwork, our athletes are giving their best, our supporters are cheering with pride, and together we are creating memories that go far beyond the scoreboard. Events like this remind us that while victories are celebrated, the real win lies in the friendships formed, the values lived out, and the resilience learned along the way. A heartfelt thank you goes to our Student Council, whose dedication and hard work have brought this tournament to life, and to every volunteer and supporter who is keeping the spirit strong throughout the games.

The excitement does not stop there. Our students will continue to take part in more sports competitions in the weeks ahead. Each time our athletes represent NationalHigh, it is another opportunity to demonstrate sportsmanship, perseverance, and pride in wearing the school colours. We also look forward to our Mid-Autumn Festival in October, a celebration that allows us to come together as one community to share in culture, joy, and thanksgiving.

Then comes one of the biggest milestones of the year: the Mid-Year Review. For our Year 3 students, this will be your very first big exam, and for many others, it is a time to measure growth and reflect on progress. To all students: remember that exams are not only about marks, they are also about building character. They test discipline, perseverance, and integrity. Pay attention in class, because when you do, revision becomes so much easier. And if you ever struggle with a concept or skill, do not be afraid to ask your teachers for help. That is exactly what they are here for. Approach your preparation steadily, be honest in your work, and when the exam comes, let your excellence shine through.

As we journey through this busy term together, my encouragement is simple: play with heart, study with integrity, and live with grace. Support one another, enjoy the ride, and make Term 2 one to remember.

Y6 MILESTONE PROGRAMME

The Power of Mindset

The Year 6 Milestone Programme “Power of Mindset”, held on 12-13 September at the Bumi Gumati Hotel, Sentul, was truly a memorable and transformative experience for both students and mentors.

Centered on the theme of growth mindset, the programme offered students opportunities to embrace challenges, strengthen resilience, and cultivate positive thinking. Through engaging activities such as Team Building, Synergy, and Problem-Solving games, participants not only learned the importance of perseverance and collaboration but also discovered how keeping a positive mindset can help them overcome obstacles.

The overnight experience also served as a platform for deeper bonding between students and mentors. Year 6 students impressed their teachers by demonstrating responsibility, independence, and discipline throughout the event. Beyond the fun and laughter, the programme allowed them to step out of their comfort zones and apply the values of growth mindset in real-life situations.

Overall, the “Power of Mindset” milestone was a fruitful, meaningful, and enjoyable experience, leaving participants inspired to face challenges with confidence and to continue nurturing a mindset that fuels growth and success.

Reflection

The Power of Mindset programme was truly an enjoyable and memorable experience. On the first day, I had the chance to work with my friends, and we had lots of fun playing exciting games such as balloon popping and the leaking pipe challenge. Although the activities were fun, they were also tiring, and I felt really exhausted after completing many challenges. Still, I learned the importance of always being cooperative with my group members, working together as a team, and never giving up no matter how tough the task may be.

On the second day, the activities continued to be both fun and challenging. I especially enjoyed the task of building the square, which tested our teamwork and determination. Even though it was tiring, I had a lot of fun with my friends while also learning valuable lessons. Through the programme, I realized the importance of being patient, determined, and persistent, as well as the joy of learning and growing together with others.

Overall, the Power of Mindset programme helped me develop a stronger mindset. It reminded me that teamwork, cooperation, patience, and determination are key to overcoming challenges and achieving success.

- Darian Tyke Kantono, Y6G

Y6 MILESTONE PROGRAMME

The Power of Mindset programme was a fun and memorable experience. On the first day, we enjoyed exciting games and good food, though some of us joked that the fish tasted like chicken. The rooms were spacious and comfortable, giving us a nice place to rest after the activities. One of the games was very challenging, but it showed us how teamwork and determination could help us solve difficult puzzles and complete tasks. By the end of the day, we also had the chance to swim, which made the experience even more enjoyable.

On the second day, the activities became even more interesting. At first, we thought the second game looked easy, but once we started, we realized it was actually very challenging. There were moments when it seemed like we couldn't complete it, but through patience, cooperation, and determination, our group managed to finish successfully. This gave us a strong sense of achievement and reminded us of the importance of perseverance.

Overall, the programme taught me that challenges are not meant to stop us, but to help us grow. With teamwork, effort, and a strong mindset, we can accomplish things we didn't think were possible.

- Raphael Jason Atmadja, Y6E

The Power of Mindset programme was a wonderful and eye-opening experience. On the first day, I especially enjoyed the water activities, which were both fun and exciting. The team games were quite difficult for me because I don't usually enjoy working in teams, but I still found the activities meaningful and enjoyable. After several games, my hip started to hurt, and later in the evening it began to rain, so we couldn't continue with the planned bonfire. Even so, the day was filled with valuable lessons and fun moments.

On the second day, I felt refreshed after a good night's sleep and woke up in a positive mood. I enjoyed the challenging activities and the team games, as they pushed me to step out of my comfort zone and interact more with others. These experiences helped me realize the importance of teamwork, resilience, and having the courage to face new challenges.

Overall, the programme encouraged me to grow, not only by strengthening my mindset but also by helping me connect with others in ways I usually find difficult.

- Jasmine Lukman Tjaij, Y6G

The Power of Mindset programme was both challenging and rewarding. On the first day, I found the water pipe team-building game to be the most difficult. At first, it was hard because my friends wouldn't listen to me, and when I tried to follow their ideas, it didn't work – the water kept spilling. Eventually, we learned to listen to each other and combined our ideas, which made it work. This experience taught me that having a positive mindset means not focusing on failure but seeing it as something we can improve on. Instead of being upset about not succeeding right away, I reminded myself that I just wasn't able to do it yet.

Y6 MILESTONE PROGRAMME

On the second day, the stacking blocks game became the most challenging activity. Our group was too noisy and couldn't concentrate, and at one point one of my teammates almost gave up. To overcome this, I asked everyone to stay quiet and focus, and it worked. With encouragement, my teammates started to believe we could do it, and that positive attitude helped us complete the challenge successfully.

Overall, the programme showed me the importance of teamwork, patience, and determination. By having a growth mindset, I learned that even when things are difficult, staying positive and encouraging each other makes it possible to succeed.

- Jessie Tjaij, Y6E

Observation from the Y6 Mentors (Ms Jaspreet, Ms Larsen, Mr Fang, and Ms Prescy)

The Power of Mindset programme was a meaningful and memorable experience for the Year 6 students. Over the course of two days, they participated in a variety of activities that were fun, challenging, and filled with valuable lessons about teamwork, resilience, and having a growth mindset.

On the first day, students enjoyed exciting games such as the balloon popping, leaking pipe, and other team-building challenges. While these activities were fun, many found them exhausting and demanding. Some students shared that it was difficult when teammates didn't listen or when strategies didn't work immediately, which caused frustration. However, through patience and cooperation, groups eventually combined their ideas and succeeded. This taught them that a positive mindset means not giving up when things don't work immediately, but instead remembering that they may not be able to do it yet.

The second day continued with even more challenging tasks, such as the square-building activity and the stacking blocks game. At first, some groups thought the tasks looked easy, but they soon realized that teamwork, focus, and determination were essential. Students learned the importance of staying quiet, listening to each other, and encouraging teammates instead of giving in to frustration. They discovered that when everyone believed they could succeed, the group became stronger and more effective.

Beyond the games, the programme also gave students opportunities to step out of their comfort zones. For some, it meant learning to enjoy working in teams, while for others, it meant finding the courage to communicate and connect with peers more openly. Despite setbacks such as exhaustion, body aches, or even the rain stopping the bonfire, students came away with a stronger appreciation for patience, perseverance, and cooperation.

Overall, the Power of Mindset programme reminded the students that success does not come from ease but from determination, teamwork, and a willingness to learn from mistakes. By keeping a positive attitude, they realized that challenges are not obstacles to stop them but opportunities to grow.

Y6 MILESTONE PROGRAMME

STUDENTS' CREATIVE JOURNEY IN ART

Year 4 students explored the theme painting on fabric by creating their own hand-painted drawstring bags. This activity encouraged them to be patient, focused, and creative as they experimented with colours, patterns, and designs. Working on fabric presented a new challenge because the soft and flexible surface required more careful brush control and attention to detail. Through this process, students not only developed their artistic skills but also learned perseverance and problem-solving.

Each piece is a reflection of their individuality and imagination, turning a simple everyday object into a meaningful piece of art that they can proudly use or share with others.

Year 3 students explored Indonesian cultural heritage by drawing the Batik Kawung pattern. They practiced making neat, repeating oval shapes, which required patience, focus, and creativity. This activity not only strengthened their drawing and pattern-making skills but also helped them appreciate the beauty of traditional art. The students were excited to learn that Batik Kawung is one of the oldest batik motifs, symbolizing purity and harmony.

By combining cultural knowledge with hands-on practice, they gained a deeper respect for Indonesia's artistic traditions while expressing their own creativity. Their finished works were beautiful examples of how young learners can connect with heritage through art.

Year 1 students enjoyed a fun and creative activity by making origami foxes. They learned how to fold paper step by step, following instructions carefully to create the shape of an animal. This activity helped them practice fine motor skills, patience, and concentration while also sparking their imagination. The students were proud of their fox creations, each one showing their unique touch and creativity.

STUDENTS' CREATIVE JOURNEY IN ART

Year 2 students expressed their creativity by making drawings about transportation on land, sea, and air. They explored different types of vehicles such as cars, ships, and airplanes, while learning how each one plays an important role in daily life. This activity encouraged them to observe details, practice their drawing skills, and use their imagination to create colorful artworks. Students also learned to appreciate the variety of transportation around them, making the lesson both fun and educational.

STUDENTS' CREATIVE JOURNEY IN ART

✨ Exploring Imagination and Expression: From Year 5 to Year 8 ✨

The artworks showcased here span from Year 5 to Year 8, reflecting the evolving journeys of young artists as they explore themes, materials, and techniques.

In Year 5, students are delving into the beauty of seasons, landscapes, and character design. They practice capturing the essence of their favourite characters while also experimenting with the moods of nature:

- **Maxwell Kurniawan (Y5G)** brings to life the characters **Obanai and Danjiro**, rendered with bold strokes of colour markers and pen, staying true to their original spirit.
- **Wyndon Lagford Aliwarga (Y5G)** interprets the cycle of the **Four Seasons** using a dynamic blend of markers and acrylic paint on paper.
- **Sara Taniwan (Y5E)** also embraces the theme of the **Four Seasons**, offering her own unique vision.
- **Arisa Xu Xinyu Srisuma (Y5T)** paints a breathtaking **sky composition**, capturing its vastness and poetry with acrylics on canvas.

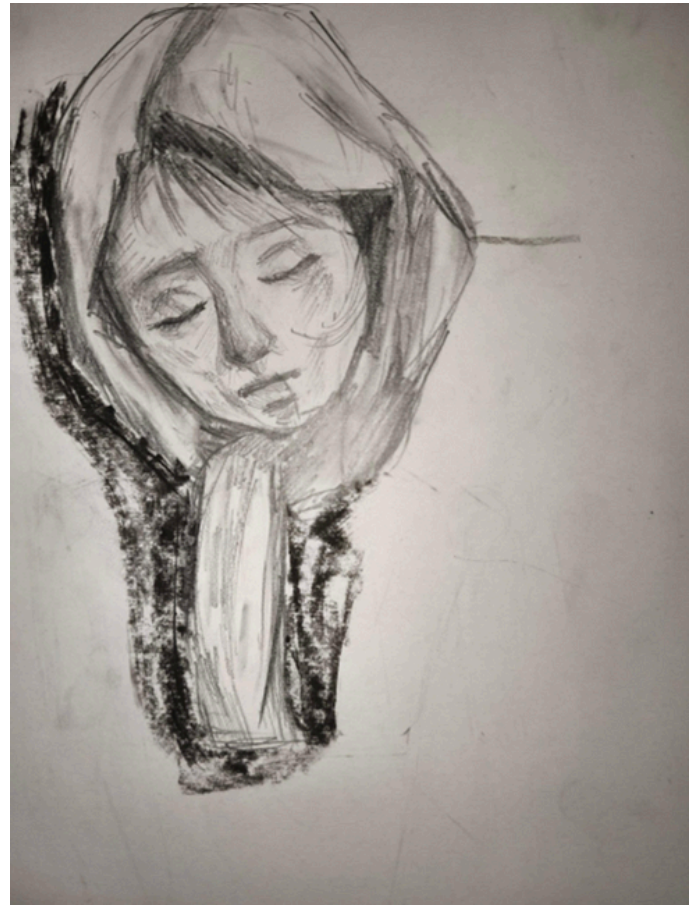

Moving into the secondary level (Years 7 and 8), students begin to explore more sophisticated ideas, shifting from **naturalistic studies** to the imaginative worlds of **surrealism**:

- **Pricilla Crystal Wijaya (Y8P)** creates a delicate graphite drawing on paper, embracing the subtlety of natural forms.
- **Jayveline Tiffany Liaw (Y8P)** presents a realist composition using graphite and charcoal, blending precision with atmospheric depth.
- From Year 7, **Lizette Ximone** steps into surrealism, painting with acrylics on canvas to merge reality with dreamlike imagination.

Together, these works represent a journey—from capturing what is seen to imagining what lies beyond, a celebration of both technical growth and creative freedom.

HIGHLIGHTS

Books Recommendations

Title: Surat Kecil Untuk Tuhan
Author: Agnes Davonar
ISBN: 9786026475879
Genre: Fiction

Surat Kecil untuk Tuhan is one of the books recommended by our Bahasa Indonesia teacher, Ms. Felicia, and was featured in the Hall of Fame section of our library bulletin board! It tells the emotional true story of Keke, a teenage girl battling a rare cancer. Despite her illness, she stays strong and writes heartfelt letters to God. The book, based on real events but written as fiction, highlights hope, faith, and the strength of family. Keke's story has touched millions and reminds us to never give up.

Title: Tuesdays With Morrie
Author: Mitch Albom
ISBN: 9780767905923
Genre: Nonfiction

Another book featured on our bulletin board is Tuesdays with Morrie, recommended by Mr. Frederick, our Secondary English teacher. It's a memoir by Mitch Albom about his weekly visits with his old college professor, Morrie Schwartz, who is dying from ALS. Every Tuesday, they talk about life, love, work, and what really matters. The book is emotional and meaningful, filled with life lessons that remind us to live with kindness and purpose. It's a touching story about friendship and saying goodbye.

HIGHLIGHTS

NHJS Shines at JSCL 2025 Soccer Grading Games

On Saturday, September 13, 2025, the NHJS soccer teams once again displayed their spirit, teamwork, and determination at the **Jakarta School Champions League (JSCL) 2025 Grading Games**, held at ACS Field. This year, NHJS proudly participated with four age categories: **U8, U10, U12, and U14**, competing against schools from across Jakarta and beyond.

The Importance of Grading Games

The grading stage plays a crucial role in the JSCL. Each team plays three to four matches to determine the division that best matches their level of play. This system ensures that the league remains balanced, fair, and competitive for everyone involved.

For the young NHJS players, it was more than just soccer — it was a valuable learning experience. They improved their technical skills, developed stronger teamwork, and embraced sportsmanship while challenging themselves against tough opponents.

Results That Make Us Proud

After a day of intense and exciting matches, the JSCL committee announced the division placements for NHJS teams:

- **NHJS U8** placed in **Division C**
- **NHJS U10** placed in **Division B**
- **NHJS U12** placed in **Division D**
- **NHJS U14** placed in **Division C**

These results are a reflection of the players' hard work, the coaches' dedication, and the ongoing support of parents. Each team showed remarkable progress, both in technical ability and tactical awareness, demonstrating the growth of NHJS soccer.

Looking Ahead to the Main Competition

With the grading results finalized, NHJS is ready to step into the main JSCL competition starting next week. Each division will bring its own challenges and rivalries, and our teams are determined to give their best performance on the field.

Beyond chasing victories, participation in JSCL 2025 is also about embracing values such as **teamwork, discipline, sportsmanship, and confidence**. These lessons extend far beyond the soccer field, shaping the character of our young athletes.

Words from the Coach

Mr. Riyan Priyanto, Head of PE, shared his thoughts after the grading games:

"I am very proud of our players. They showed courage, teamwork, and a fighting spirit in every match. These results prove that NHJS can compete and grow among strong schools in JSCL. I believe this season will be a great opportunity for our players to learn, improve, and enjoy the game."

HIGHLIGHTS

Our Hopes for the Season

The NHJS community is excited and optimistic about what lies ahead. No matter the outcome, we are proud of our players for their courage, commitment, and passion for the game. Competing in a prestigious league like JSCL is already a significant achievement, and we look forward to supporting our teams every step of the way.

Let's cheer for NHJS as they take on the challenges of JSCL 2025 and strive for success in their respective divisions!

Warm Regards

NHJS Team Coaches
